Point and count out loud — can you find your age? Your house number?

Fill it in *yourself!*

We left you 1, 10, 25, 50, and 100 as stepping stones.

Treasure hunts

grab your crayons and hunt on page 2 or 3!

Pumpkin hunt: color every number you say counting by **2s** orange.

Leaf hunt: circle every number you say counting by **5s** green.

Gold hunt: put a gold star on every number counting by **10s**.

Family hunt: find everyone's age and draw a heart on it.

Mystery number: one player picks a secret number; the other asks "bigger than 50?" "in the orange row?" until they catch it!
